 - e. Applicants to be included in the draft must complete the application form and posted/emailed to the ATBSO (N) Secretary and will be accepted up to 14 days after the last State / Territory / Zone has completed their selection trials
- 4 Draft Guidelines for State, Territory & Zone Associations
- a. Draft nomination forms are for circulation to all players who were not successful in the zone roll-off, or players who wish to fill in the forms prior to your roll-off if they are not successful. First reserve has first opportunity and so on down the list.
 - b. These forms should be circulated to and promoted to your players missing the cut as an opportunity for advancement in the sport.
 - c. The National Secretary will be responsible for keeping a list of available draftees and arranging final selection. Once the closing date for those nominations has passed, the register of bowlers will be sent to the State / Territory / Zone that finished lowest in the results of the previous year's events first.
- If a State or Territory requires one or two selections, then selections are made together, but if more than two are required, then the third selection is made after all other teams requiring a draft player have selected their one or two draft players. The process then recommences until all draft positions are filled or the pool of available players has been exhausted.
- i. That Zone Committee will make their selection, contact the bowler and if the bowler agrees to join them, advise the National Secretary to remove that bowler from the register.
 - ii. If a bowler selected by a zone refuses to bowl for that zone, then they will be removed from the Draft listings and thus be made ineligible for drafting into any other team.
 - iii. The ATBSO (N) Secretary will then send the amended register to the next lowest finishing.
 - iv. The above process will continue as required.
 - v. Consideration needs to be given to individual draft players preferences as to which State Territory they wish to represent.

This was instituted in 2012 after the National Board ran out of money to pay expenses incurred during the year.
